

The Department of Labor

Date: November 3rd, 2020

Good afternoon,

Your company is currently registered as an EDI sender in Louisiana. Per [our announcement on June 24th](#) of this year, Louisiana is currently modernizing its Trading Partner Profile (TPP) system and has asked all Trading Partners to re-register their profile using the new system. The system may be found as follows:

- Portal: <https://lwcedi.info/register>
- Registration Instructions (PDF): <https://lwcedi.info/reg-instructions>

All Trading Partners have been asked to re-register by Monday, October 19th, 2020.

According to our records, your company has not re-registered their TPP in the new system. Please re-register in the new registration no later than Friday December 4th, 2020.

Any Trading Partner that does not re-register by the 12/04/2020 deadline will have their TPP deactivated and will be unable to submit EDI on new or existing claims until their profile is re-registered.

Please make preparations to re-register before the deadline or confirm that you no longer wish to send EDI in our jurisdiction or have registered under a different sender.

Please contact the Louisiana at lwcedi@lwc.la.gov if you have any questions or concerns.

Thank you,

Louisiana Records Management Section
