

Louisiana Workforce Commission (LWC) Announcement

LWC EDI Claims Release R3.1 for FROI Only – Version 1.2 EDI Requirements Now Available and EDI Testing Scheduled to Begin on February 27, 2023

Date: 02/02/2023

LWC EDI Claims Release 3.1 Requirements:

The LWC EDI Claims Release 3.1 Version 1.2 Requirements (Revision Date: 02/01/2023, Effective Date: 05/22/2023) has been posted on the Requirements page: <https://lwcedi.info/requirements>.

LWC EDI Claims Release 3.1 Testing:

The testing period for LWC Trading Partners (Direct SFTP) and EDI Vendors will **begin on February 27, 2023**.

There is no need to create a new LWC Trading Partner Profile (TPP) or update existing profiles prior to testing. However, if reporting changes to the existing Sender, Receiver, Insurer, Claims Administrator, or transmission protocol on file, please go to <https://lwcedi.info/register> to make changes.

EDI Vendors and Direct SFTP Trading Partners submitting claims data directly are required to complete the Test Plan. The updated Transition Plan, Test Plan and the Test Feedback Plan Request List is available at <https://lwcedi.info/impl-info>. **Direct SFTP trading partners or EDI Vendors who has not completed and passed the FROI Claims Release 3.1 testing will not be advanced to production.**

Exceptions: No Claims Release 3.1 testing is required for LWC Web Entry filers using wcPrism. In some cases, if a Trading Partner is using an EDI Vendor, the EDI Vendor will coordinate and/or perform the testing on behalf of the Trading Partner.

Please note the following important information regarding the incoming test files:

- Must contain proper information consistent with the approved method on the TPP
- The Test/Production Indicator (DN0104) located in position 82 of the Header Record should be set to 'T' for all testing

Testing concludes May 5, 2023, and the implementation date for EDI Claims Release 3.1 is May 22, 2023.
